4. **OPTIONAL:** if you are relocating the license plate to the tailgate, install it on to the JK Vent Cover. Be sure to orient it so the vent holes in the cover are below the license plate. License plate mounting holes are already cut into the Vent Cover, but hardware to attach the license plate is not included. Note that a license plate and/or third brake light may be required in your area.
5. Install the JK Vent Cover. Orient it so the vent holes are at the bottom as shown in the product photo at the top of this page. Use the remaining four (4) M8- 1.25 X 30mm OE tire carrier bolts in the top and bottom bolt locations.
6. Use the 13mm socket and ratchet to tighten the eight (8) bolts.

*Congratulations! Your installation is complete.*
